

CORES HAN 1.10 Release Notes

These notes describe highlights of the CORES HAN 1.10 release scheduled for Thursday, May 19, 2022. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Account Data Table Configuration

When implementing or updating your CORES HAN solution, now you can request additional configuration of the data table columns associated with accounts to better meet the needs of your organization. For example, the System Role column can be removed and replaced with a column such as Job Title.

Enhancements and Resolutions

- User interface improvements were completed on the accounts page to align buttons and simplify the account import process.
- Additional general usability enhancements were completed.
