

CORES HAN 1.13 Release Notes

These notes describe highlights of the CORES HAN 1.13 release scheduled for Wednesday, August 24, 2022. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Bulk Actions

Now, you can update several accounts, group members, organization members, or groups with new bulk action features. For example, you can:

- Change the status of accounts. Selected accounts can be updated to the Active, Inactive, Closed, or Deleted status.

Note: Applying the Deleted status to accounts permanently removes them from the CORES solution. This action cannot be undone.

- Add group members to another group. Selected group members can be added to a new or existing static group.
- Add organization members to a group. Selected organization members can be added to a new or existing static group.
- Delete groups. Selected groups can be permanently removed from the solution.

Filtering

Enhancements to the filtering feature allow you to enact selected criteria by pressing enter on your keyboard.
