

eICS™ 4.55 Release Notes

These notes describe highlights of the eICS 4.55 release scheduled for Wednesday, July 19, 2023. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Restored Facility Staff Permissions

The Facility Staff permissions on an ended incident were restored.

The screenshot shows the eICS 4.55 interface. At the top, there are tabs: Planning, Response, Recovery, Settings, and JX. Below the tabs, there's a dropdown menu for 'Incidents for' set to 'Fish County Health Department (Springfield U...'. To the right of the dropdown are two checkboxes: 'Hide Test Incidents' and 'Hide Archived Incidents', both of which are checked. Below the dropdown is a table with columns: Type, Status, Incident, and Start. The table has two rows. The first row is highlighted and has a blue arrow pointing to the 'View' button in the 'Type' column. The second row is also highlighted. To the right of the table is a panel titled 'Severe Air Quality Index Warning' with a 'General' section. The 'General' section contains the following information: Status: Ended(Exercise/Drill), Started: 17 Jul 2023 12:17, Name: Severe Air Quality Index Warning, Description: Severe Air Quality Index Warning, Operational Period: Immediate - started 17 Jul 2023 12:17, and Last Update: Jessel Flems - 17 Jul 2023 12:17.

Type	Status	Incident	Start
