

EMResource® 4.11 Release Notes

These notes describe highlights of the EMResource 4.11 release scheduled for Wednesday, May 24, 2023. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Username No Longer Supported

As part of the final stages of migration to Juvare Login Services, usernames are no longer supported when logging in to EMResource. Instead, the login email address must be entered.

New Login Page

In this release, the EMResource login page has a new user interface. When you navigate to the login page, click **Log In**; then, you will be redirected to the Juvare Login Services login page, where you must enter your login email.

If you logged in recently, your login email is remembered, and you will be prompted to select either “Continue as login email” or “Log in as a different user.” We recommend that users update their EMResource bookmark to <https://login.juvare.com>.
