

EMTrack® 6.3 Release Notes

These notes describe highlights of the EMTrack 6.3 release scheduled for Wednesday, April 26, 2023. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Enhancements and Resolutions

- The Patient Detail Report now includes latitude and longitude coordinates, as well as the address in the Transport History section. The coordinates are only available for entries made in the mobile app (iOS and Android), not entries made in a web browser. The address comes from the incident site or provider facility location when available; otherwise, it is calculated from the coordinates.

Transport History						
Time	Provider	Latitude	Longitude	Address	Status	Update by
04/12/2023 22:16 EDT	--	33.08881225 919756	- 112.15184722	85121, Bapchule, AZ, USA*	Transporting: To 01. Beth Israel Deaconess	System User
04/13/2023 10:16 EDT	01. Beth Israel Deaconess			330 Brookline Ave, Boston, MA 02215	Received	

*This address has been reverse

- An issue that prevented Family Reunification administrators from adding new Family Reunification users was resolved.
- An issue related to user permissions for the Dispatch role was resolved.
- An issue that prevented text wrapping in the address field of comma-separated value (CSV) files was resolved.
