

EMTrack® 6.6 Release Notes

These notes describe highlights of the EMTrack 6.6 release scheduled for Wednesday, August 23, 2023. More information is available through the help in your solution or by contacting Juvare Support at 877-771-0911 or support@juvare.com.

Enhancements and Resolutions

- Through **System Settings** on the *Users* page, administrators can now view users' login email when exporting the User Report.
- An issue that prevented sorting users by column header after entering search criteria was resolved.
- An issue that caused the **Bulk Deactivate Users** button to display but not function was resolved. Now, the button is available and working for Regional Administrators as expected.
- On the *Locate* tab, an issue that prevented the appropriate message from displaying when more than 30 patients matched the search criteria was resolved.
