

WebEOC® IPAWS 3.8.0 Release Notes

These notes describe enhancements introduced in the WebEOC IPAWS add-on 3.8.0 release scheduled for Tuesday, May 11, 2021. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

IPAWS Cloud Transition

As a result of the IPAWS Cloud Transition, the IPAWS plug-in configuration was updated to send demo alerts to the new IPAWS environment. To ensure your demo alerts are sent, you must upgrade the plug-in before May 31, 2021.

Resolutions

An issue in which Wireless Emergency Alerts (WEA) messages with the event type "Practice/Demo warning" failed to send was resolved.
