

## WebEOC® EMResource 3.2 Release Notes

These notes describe enhancements introduced in the WebEOC EMResource 3.2 release scheduled for Thursday, February 17, 2022. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or [support@juvare.com](mailto:support@juvare.com).

### Enhancements and Resolutions

- The History tab was updated to include the logging of error messages.
- The Plugin Admin page now opens on a new tab, within the Admin Area window, instead of in a separate window.
- An issue that prevented you from adding a division when configuring the board mapping was resolved.
